

Vocosa Ltd. Carbon Reduction Plan

Supplier name: Vocosa Ltd

Publication date: 30/09/2022

Commitment to achieving Net Zero

Vocosa Ltd is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 30/09/2020 to 29/09/2021	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	52.95
Scope 2	0.77
Scope 3 (Included Sources)	20.50
Total Emissions	74.22

Current Emissions Reporting

Reporting Year: 30/09/2021 to 29/09/2022	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	49.64
Scope 2	0.585
Scope 3 (Included Sources)	18.05
Total Emissions	68.28

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease to 46.78 tCO₂e by 2030. This is a reduction of 62%

Progress against these targets can be seen in the graph below:

Carbon Reduction: Projected vs. Actual

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2021 baseline.

Offsets purchased for operational carbon positive certification:

Volume (tCO2e)	Percentage of footprint
137	200

Project breakdown

Project	Volume (tCO2e)
Envira Amazonia Conservation Project, Brazil	100
Gold Standard Karnataka Wind Farm, India	37

The above projects verified by VERRA, Gold Standard or UN CDM

Future Plans:

- Upgrading our company vehicles (vans) to fully electric. However, we do not envisage this happening for at least 2/3 years due to the vehicles not requiring replacement yet and our business operations, particularly distances travelled and lack of charging points and duration of charging vehicles
- Install solar panels at the company HQ
- We will continue to be more environmentally aware and continue our pathway to net zero
- We are actively discussing eco incentives with our customers.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
